CATHOLIC COMMUNITY

Building Community – Sharing Faith Our New Church

A few years ago we embarked on a plan to transform our parish campus to ensure a strong and vibrant Catholic Community today, and well into the future. Many of you are supporting our mission, and together we are indeed building community and celebrating faith. Certainly, if it were not for you walking with us on this spiritual journey, we would not have embarked on the physical transformations that are well underway.

We are systematically working our way towards the construction of our new church. The new play area and ball courts are complete, and they have already seen a tremendous amount of use. Soon, we will be completing the grassy play area with retaining wall, reconfigured parking, and our connection from the Mary & Joseph Retreat Center. The next step in the sequence of our construction is the resurfacing and reconfiguration of the center portion of our parking lot.

We are excited about our progress and we have all been working hard; however, these are just a few details of the work being done. Stay tuned for more. Thank you.
